Usmaila Abdoul

Software Engineer

💼 Employment History

Project Manager at GitStart Community (YC S19), Hong Kong

June 2021 — Present

- Led a team of 6 developers to build successfully and ship features of a software project on time and within budget, managing day-to-day project stand-ups, code reviews, peer developer sessions, client communications, and project delivery.
- Using NextJS App router to build efficient server-side and client-side rendered applications, significantly improving the SEO perfomance of the application and load time.
- Using the latest tools from React like useMemo to memoize data and components to reduce the amount of rendering in the application.
- Building performant API endpoints with Express and NestJS, while writing efficient database schemas and queries in MongoDB and PostgreSQL

Frontend Developer at The Sports Media Agency, London

January 2022 — December 2023

- Using the latest Angular version to Revamp, rebuild, and redesign various Sports media agency websites while improving performance, load time by up to 20%, and user experience through the use of methods like server-side rendering and pre-rendering in Angular Universal.
- Building and maintaining new features unique to our use cases to better our users' experiences across our various websites.
- Writing quality, test-supported code and participating in peer code reviews.

Frontend Developer at Digital Renter

March 2019 — April 2021

- Building and releasing the Digital Rental cross-platform mobile application for both Android and IOS which gained over 1000+ downloads on Play Store.
- Building a Facebook messenger bot with NodeJS which cut cost/time by 25% and also helped drive more traffic to our website as customers were able to request and find properties on Digital without the help of our customer service agents.
- Designing and building cross-platform applications for different clients with React Native.
- Coaching other developers and teammates in the company

🎓 Education

Bsc in Computer Engieering, University of Buea, Buea

October 2017 — June 2021

Details
